DO YOU WANT TO MAKE A DIFFERENCE?

Community service and service-learning are great ways to get the most out of your Saluki experience. You can make new friends, build skills, and have fun while serving others. Whether you are a first-year student or a seasoned graduate student the Center for Service-Learning and Volunteerism has a service opportunity for you!

The Center for Service-Learning and Volunteerism prepares students to be engaged, aware and responsible citizens. Co-curricular and course-based opportunities for service and reflection allow students to be connect with peers, faculty, and the community as active learners and thus contribute to the service mission of the university. Students learn in a holistic environment that prepares them for leadership in a diverse society.

CHECK IT OUT

This year's Morris Service award honors LDP for its commitment to community service. Learn more on the [CSLV blog!](#)

VOLUNTEER SPOTLIGHT

"Volunteering at Gum Drops over the past four years has helped me grow as a person and continue to love making a difference for the local community. Volunteering here has made me hope to one day start my own organization just like them to help local families and children who are working toward a better life."

Conrad Tyrell, Senior Human Nutrition and Dietetics, Burlington, IL
