OUR DEGREES

We prepare the next generation of leaders to face challenges and generate opportunities in areas as diverse as land use and resource management, food production and science, animal science, tourism, education, and public policy-making.

Bachelor of Science »

Master of Science »

Ph.D. in Agricultural Sciences »

OUR DEPARTMENTS

With 29 undergraduate and 18 graduate programs, we present a broad view of agriculture, resources, and nutrition. Our facilities include a 2,000-acre working farm and forest system, as well as specialized research centers and production units.
