WELCOME TO THE COOPERATIVE WILDLIFE RESEARCH LABORATORY (CWRL)

The CWRL has a mission of teaching, research, and service consistent with that of Southern Illinois University Carbondale. Teaching efforts in the lab often focus on graduate training, but CWRL faculty members also contribute to undergraduate teaching and advisement of zoology, biology, and other life sciences majors, especially students specializing in wildlife biology and conservation.

agencies, private conservation organizations, and colleges and universities.

The CWRL maintains a strong international reputation for high quality research and graduate training. The blend of basic and applied research by CWRL staff emphasizes the welfare of people, wildlife resources, and their environments. Many research programs address regional/state needs and priorities, while others extend to international scales to serve the needs and interests of those concerned with the management and conservation of natural resources. CWRL graduates have gone on to have successful careers with state and federal

WELCOME TO THE NEW FACES OF CWRL!
