**INTERACTIVE FACT BOOK**

Southern Illinois University's new Interactive Fact Book provides institutional data pertaining to students enrolled at SIU, as well as the faculty and staff who work here. Data found in SIU's Interactive Fact Book reflects information that was included previously in our printed Fact Book, the only difference being that this data is now available online through Tableau dashboards. Having this information available online allows you to interact with and analyze the data in a variety of meaningful ways. Additionally, you can view, download, and print the data in several formats including tables, spreadsheets, graphical representations, or a combination of these formats, which is called a Tableau "story."

[LEARN HOW TO USE THE INTERACTIVE FACT BOOK](#)

**STUDENTS**

View student dashboards related to admissions, credit hours, enrollment, degrees conferred, graduation and retention rates, and more.

**FACULTY AND STAFF**

View faculty and staff dashboards related to employee headcounts, average salaries, economic impact, and more.

**BUDGET AND FINANCE**

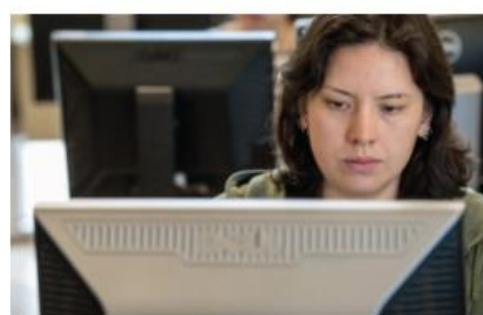

View budget and finance dashboards related to operating budgets, tuition and fee rates, financial aid, and more.
