### 2019 STUDENT CREATIVE ACTIVITIES AND RESEARCH FORUM UNDERGRADUATE AND GRADUATE OUTSTANDING POSTER WINNERS

In past years, there have been two separate events to celebrate the range and quality of the original work being performed by Undergraduate and Graduate Students at SIU. This year these two events are being merged into the **Student Creative Activities and Research Forum**.

All students engaged in any type of scholarly activities, research, or creative activities are invited to present a poster sharing their work with the SIU community. After the forum the Chancellor and Vice Chancellor for Research will speak and 1st, 2nd, and 3rd place awards will be given for the best poster presentations in each category (Undergraduate and Graduate).

*To learn more about this opportunity, see [Information for participants](#).*
